

Laboratory Rules - Student Activity

Please read and discuss the reason for the following rules

- 1. A teacher should always be present when entering the lab.
- 2. Leave all your belongings outside the lab.
- 3. No running in the lab. Always walk to avoid accidents.
- 4. No shouting or messing around with anything or anyone.
- 5. Long hair should be tied back.
- 6. Safety goggles may be worn to protect your eyes.
- 7. Eating and drinking in the laboratory is not allowed.
- 8. Follow all instructions carefully.
- 9. Ask questions if you are uncertain about the experiment.
- 10. When finished with your experiment waste materials should be put in the correct containers.
- 11. Put away all your equipment and clean your work bench.
- 12. Wash your hands after activities.
