

## Evidence of Local Landscape Change – Student Activity

Collect evidence of changes to Earth's surface in your local area and make a poster demonstrating these changes.

The poster should describe at least one example of:

- Local weathering causing change
- Erosion causing change
- Human activity causing change

Each example should have:

- A title explaining the type of change 1 mark each
- A photograph or drawing of the location 4 marks each
- Labels indicating the change 1 mark each

The poster should have a clear title 1 mark  
The poster should be easy to read 1 mark  
Your name clearly written on the back 1 mark

Total marks

### Hints

1. **Reduce the words to only those, which are necessary. Most good posters rely on clear images and few colours**
2. **Select the best example you can find.**
3. **If in doubt, check with your teacher.**

**This poster is due** \_\_\_\_\_
